**Amendments to the Specification:**

Please replace paragraph [0045] with the following paragraph:

“Such a pressure device is described in the United States Patent Application No. 09/683,658, filed on January 31, 2002, by Mark Philip D'Evelyn et al. entitled “Improved Pressure Vessel,” which is incorporated herein by reference in its entirety. The pressure vessel comprises the capsule disclosed in the present invention, a pressure transmission medium surrounding the capsule for maintaining an outer pressure on the capsule, a heating element insertable in the pressure transmission medium such that the heating element surrounds the capsule, a restraint to contain and hold in place the capsule, the pressure transmission medium, the heating element, and at least one seal between the restraint and the pressure transmission medium for preventing escape of the pressure transmission medium.”
